

Testing and Installing Zoom on MacOS

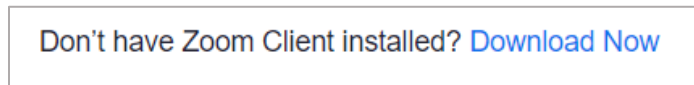

- 1) Open a web browser and go to <https://zoom.us/test>
- 2) Click the **Join** Button

- 3) Click the **Launch Meeting** button

- 4) **If Zoom is already installed**, it will open and you will join the test meeting.
Go to Step 9.
- 5) **If Zoom does not open**, you need to install it
- 6) Click the link to **Download Now**

- 7) After the file downloads, open it to install Zoom
- 8) When the install is complete, Zoom will automatically open.
- 9) Go back to your web browser, and click **Launch Meeting** to join the test meeting.
- 10) You will be prompted to "allow this page to open zoom.us?" – **Click Allow**
- 11) **You are now ready to join Zoom meetings.**
- 12) During the meeting, use the Q&A or Chat button to submit questions or comments.

Now that Zoom is installed, the next time you click a link to **Launch Meeting**, you will automatically join the Zoom meeting.

Additional help on how to use Zoom can be found online:
